NEW DESIGN! **SuperValve®**

YOU DECIDE YOUR INSTALLATION

LEFT/RIGHT **UP/DOWN**

Reversible Flange
Unlike a traditional valve, the flange of this new valve is completely separate from the body, therefore it can either be placed on the left or right of the stud depending on your installation requirements.

NEW!
Larger lower flange for stronger installations.

Newly designed retro-fit features
No need to cut off the flange of traditional mounting plates when performing retro-fit installations. Simply step in the cover plate to secure electrical connections.

NEW!
Lower tab adds extra strength and stability to the retro-fit installation.

NEW recessed box to accommodate valve in vertical application.
